GROUND GLASS LENSES

(set of six)

1. Double Convex, F.L. 167 mm
2. Plane Convex, F.L. 333 mm
3. Concave/convex, F.L. 500 mm
4. Double Concave, F.L. -167 mm
5. Plane Concave, F.L. -333 mm
6. Convex/concave, F.L. -500 mm

This set of six ground glass lenses provides a useful range of focal lengths for demonstrations and experiments. Each lens is 50 mm in diameter. The diagram above illustrates the geometry of each lens as well as the focal length. The diagrams below illustrate imaging effects of four of the lenses.
