QuickStart – Macintosh

What You Need

ScienceWorkshop 500 Interface

AC adapter

Macintosh modem/printer cable

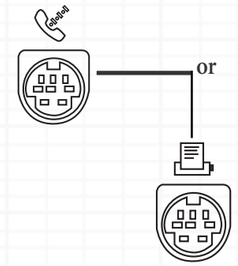

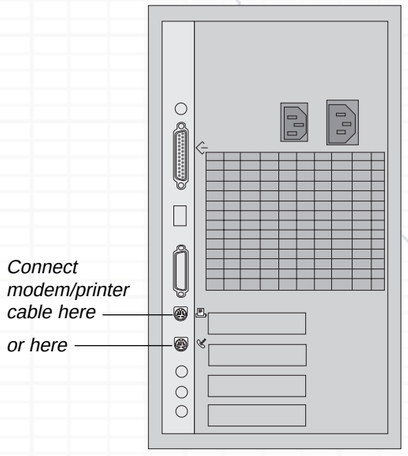

DataStudio CD-ROM
(also contains *ScienceWorkshop*® software)

Get Connected

1. With your computer turned off, locate the modem or printer port on the back of your computer.

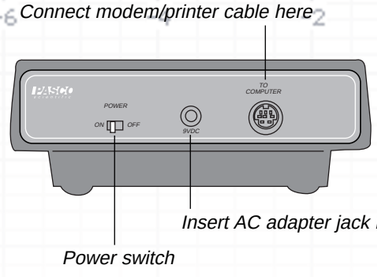

It will look like this:

2. Connect either end of the modem/printer cable to the modem port on your computer. The cable is keyed so it cannot be installed incorrectly.

3. Connect the other end of the modem/printer cable to the port labeled "TO COMPUTER" on the back of the *500* Interface.

4. Insert the AC adapter jack into the back of the *500* Interface. Plug the AC adapter into a standard AC power outlet.

5. Switch the interface on using the power switch on the back of the interface. The "on" light will illuminate on the front of the *500* Interface.

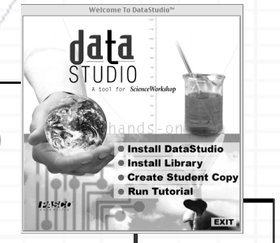

6. Turn on your computer.

Install Software

1. Insert the DataStudio CD-ROM into your computer's CD-ROM drive.

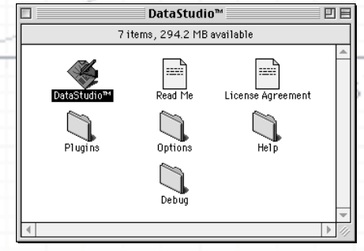

The DataStudio Installer will automatically begin the installation process.

2.

3. Follow the on-screen prompts.

4. Click "Run tutorial" to learn the basics of DataStudio Software (approximately 1.5 hours).

5. To run DataStudio, double click the DataStudio icon in the DataStudio folder.

QuickStart – Windows

What You Need

ScienceWorkshop 500 Interface

PC serial cable

AC adapter

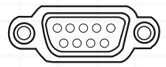

DataStudio CD-ROM
(also contains *ScienceWorkshop*® software)

Get Connected

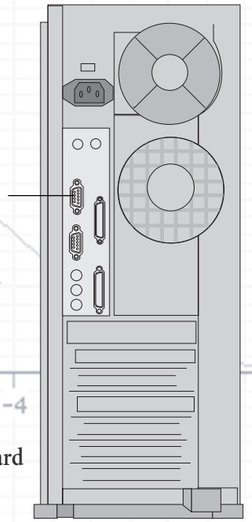

● With your computer turned off, locate the 9-pin serial port on the back of your computer.

It will look like this:
Your serial port might have the symbol "10101" next to it.

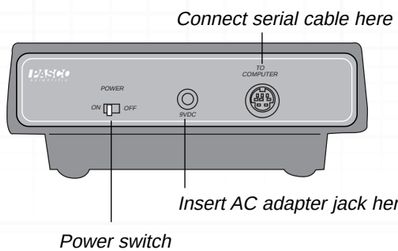

9-pin serial port

❷ Connect and secure the serial cable to the back of the computer. The cable is keyed so that you cannot plug it in incorrectly.

❸ Connect the other end of the serial cable to the port labeled "TO COMPUTER" on the back of the *500* Interface.

❹ Insert the AC adapter jack into the back of the *500* Interface. Plug the AC adapter into a standard AC power outlet.

❺ Switch the interface on using the power switch on the back of the interface. The "on" light will illuminate on the front of the *500* Interface.

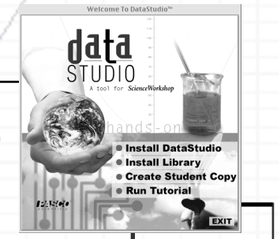

❻ Turn on your computer.

Install Software

❶ Insert the DataStudio CD-ROM into your computer's CD-ROM drive.

The DataStudio Installer will automatically begin the installation process. ❷

Follow the on-screen prompts. ❸

❹ Click "Run tutorial" to learn the basics of DataStudio Software (approximately 1.5 hours).

❺ To run DataStudio, double click the DataStudio icon in the DataStudio folder.
